Education

Vels Institute of Science, Technology & Advanced studies

Bachelor of Technology in Automation and Robotics(CGPA of 9.4)

August 2022 - May 2026

Chennai, Tamil Nadu, India

INTI International University

Malaysia (2025)

Student Mobility Programme – Bachelor of Computer Science (Hons.)

CGPA: 2.98 / 4 | Courses: Artificial Intelligence, Wireless Network Planning & Design

Projects

AI-Powered Friend Recommender System (Flask, Python, Bootstrap)

Built a prototype with AI-based friend recommendations and responsive UI.

Gesture-Controlled Robotic Hand (Arduino, NRF24L01, Servo Motors)

Developed a wireless robotic hand using RF-based transmitter–receiver architecture and embedded C to control 5 servo motors through real-time gesture input.

IoT-Based GPS Tracking System (Arduino, NEO-6M GPS, GSM Module)

Built a real-time GPS tracking system using NMEA data parsing and UART communication to transmit location coordinates via GSM.

E-Commerce Website (Spring Boot, Thymeleaf, Razorpay)

Developed a full-stack app with authentication, cart, checkout, and payments.

Robotics Blog Platform (Spring Boot, Thymeleaf)

Created a robotics blog with post creation, login/register, and dynamic UI.

Certifications

Core Web Design, SQL, Core Java, Full Stack Development (Spring Boot)

Itvedant Institute

Successfully completed training in web design, database management, Java programming, and full stack development using Spring Boot.

Web Development (HTML), SQL & Relational Databases 101, Java Fundamentals

IBM Developer Skills

Network Acquired knowledge of web development, SQL queries, relational database concepts, and Java fundamentals.

Experimental Robotics, Python for Data Science, Automation in Manufacturing

NPTEL

Gained hands-on learning in robotics, Python programming for data science, and automation applications in manufacturing.

Technical Skills

Programming – C(Embedded C), Java, Python (Fundamentals), SQL

Embedded Systems – Arduino, NRF24L01 (SPI), NEO-6M GPS, GSM Module, UART Communication

Core Concepts – Data Structures, OOPS, DBMS, Computer Networks, Serial Communication

Backend/Web – Spring Boot, Thymeleaf, React JS, HTML, CSS

Databases/Tools – MySQL, SQL, Relational DBMS, Git, Bootstrap

Language

English ,Tamil
